TO EXPOSE ENTIRE METHOD OF LEAKS

Secretary Wilson Has Important Letter On File.

REPORT WAS TAMPERED WITH

It Is Asserted that the Communication Gives in Detail the Manner in Which the Government Report Was Falsified.

New York, July 19.—A letter is now in the hands of Secretary of Agriculture Wilson, says the Herald, the contents of which have been sworn to, relates in details, methods said to have been pursued in the alleged purports to expose the entire inner workings of the plans. No information is vouchsafed by the Herald to the writer of the letter, but he is said to be one of the men whose connection with the affair is a matter of public knowledge but whose identity is withheld for the present. The assertions contained in the letter, continues the Herald, relate in minute detail the precise manner in which the official report was tampered with; who took part in the operation, to what extent the fraud was perpetuated and where and how the proofs of the charges in the letter may be.

Richard Cheatham and Harvie Jordan, respectively secretary and president of the cotton growers' association who, with active co-operation of several New York men, have conducted a private investigation here, are now in Washington where they expect to confer with Secretary Wilson over the contents of the letter. That the letter is accurate in its information is declared beyond doubt. An outline of its contents has been given to Morgan Beach, district attorney for the District of Columbia, one of the officials employed to take up the investigation that brought Mr. Beach to New York Monday to enter into consultation with the counsel retained by the Southern Cotton Growers' association, and take over the evidence they had discovered.

Statistician Hyde Resigns.

Washington, July 19.—Chief Statistician Hyde, of the department of agriculture, today resigned his position, and the resignation has been accepted by Secretary Wilson. Assistant Secretary Hays has been detailed to take charge of the statistical work until the vacancy shall be filled.

Warships Sail to Meet Squadron.

Newport, R. I., July 19.—The second division of the battleship squadron of the North Atlantic fleet under command of Rear Admiral Sigsbee sailed today bringing the squadron of battleships which is conveying the body of John Paul Jones to this country from France. The warships will separate and cruise between here and Hampton Roads, Va., always within wireless communication with one another. When the warships which are transporting the body are located, by wireless messages Rear Admiral Davis' ships will assemble and escort the inward bound fleet to Hampton Roads. Tomorrow the first division of the battleship squadron will sail from Newport for Hampton Roads.

Want to Dispose Emperor Nicholas.

St. Petersburg, July 18.—12:05 p. m.—A sensational rumor is current here today that a large party of the zemtvoists and doumaists at Moscow are in favor of the proclamation of the disposition of Emperor Nicholas and the establishment of a regency for the Grand Duke Alexis Nikolyaievitch (the infant son of the emperor and heir to the throne) under four grand dukes. It is alleged that for this reason the meeting of the all-Russian zemstvoist and doumaist congress, which was to take place tomorrow at Moscow, has been prohibited.

Press Clubs Meet in Detroit.

Detroit, Mich., July 19.—The fifteenth annual convention of the International Association of Press clubs began here today. The first session was devoted to addresses of welcome and responses, and organization work.

MORE TEAMSTERS MAY STRIKE.

300 Drivers of Coal Wagons Are Likely to Quit Their Jobs.

Chicago, July 19.—After a peaceful interim the teamsters' strike today threatened to create more trouble by the walkout of 300 or more drivers for the six larger coal express transfer companies. The question of a walkout, which has been much discussed during the last three weeks, was reduced to "ultimatum form" by the teamsters' joint council.

The concerns which are confronted with the possibility of being drawn into the struggle afte ravoiding the issue for three months, are members of the Chicago Cartage company, which was created at the time the express owners were ordered by the court to deliver the strike bound houses.

The cartage company is the source of the battle. Nonunion drivers are employed on the wagons and the men are made to associate, it is asserted by the teamsters, with the union drivers.

STOCK IN TRUSTEE'S HANDS.

Hyde's Equitable Society Holdings Controlled by Company.

New York, July 19.—The majority stock carrying the controlling interest in the Equitable Life Assurance Society, which was acquired by Thos. F. Ryan, by purchase from James Hazen Hyde, has been formally transferred to the board of trustees which is headed by former President Cleveland. This announcement was made today by George F. Parker, secretary of the Equitable trustees in the following statement:

"Messrs. Grover Cleveland, George Westinghouse and Morgan J. O'Brien, trustees of the majority of the Equitable stock, announce that all of the 502 shares of stock of the Equitable Life Assurance society delivered to them by Thomas F. Ryan, have been transferred to their names as trustees and that it is now represented by a single certificate held by the msubject to the trust agreement."

No Reason for Dissolution.

London, July 19.—Premier Balfour has dissipated the hopes of his opponents of an early dissolution of parliament. At a meeting of Unionists today the premier urged his supporters to be regular in their attendance at the house of commons so as to prevent the defeat of the government as the result of a snap division. He pointed out that a dissolution in August would be inconvenient to the house and to the country. The premier said he did not anticipate any trouble in bringing the session to a close during the week ending Aug. 12. Joseph Chamberlain, in a brief speech, said that while he formerly differed from Mr. Balfour on the question of an early dissolution, he now thought there was no good reason why parliament should be dissolver soon.

No More Immediate Arrests.

Philadelphia, July 19.—In a statement issued today by former Judge James Gay Gordon, counsel for Mayor Weaver, it was announced that further arrests in connection with the frauds alleged to have been perpetrated against the city by contractors and others are off for the present and when the time comes to begin proceedings against those who will be accused of the alleged frauds, District Attorney Bell will be invited to co-operate in every stage of the proceedings from the swearing out of warrants until the trial of the case in the criminal courts.

Depositors to Get Forty Per Cent.

Manila, July 19.—The depositors of the American bank will receive 40 per cent of their deposits. The American bank was closed on May 18 last on an order given by Governor General Wright, and its affairs were placed in charge of the insular auditor. The reason given at the time was the protection of its deposits. On May 26 the attorney general applied for the appointment of a receiver. The bank was capitalized at $100,000.

HOT WAVE SWEEPS OVER THE COUNTRY

Excessive Heat Is Reported In the Eastern States.

MANY DIE FROM PROSTRATION

The Hottest Weather of the Year Is Being Experienced in Many Cities. In Many Places a Number Have Died From Excessive Heat.

New York, July 19.—Late returns from the hospitals show ten as the total dead from yesterday's terrific heat in and about New York.

More than 100 cases of prostration were reported by the police. Everywhere in the city thousands of persons spent the night on roofs and door steps while the park benches were crowded. Sleep was almost out of the question, except under most favorable conditions, especially on the East side and quarter known as The Tenderloin. No relief is promised by the weather forecasters, and as the humidity rose rapidly during the night, the outlook for today was serious during the early hours of the morning.

A strike inaugurated by 700 icemen in the employ of the American Ice company is adding discomforts to the people in many sections of the city. It is feared the strikers will attempt to prevent others from taking their places.

Brooklyn seemed to suffer from the heat even more than Manhattan. Seven of the dead lived there and the ambulance service for all the hospitals worked almost incessantly. Eleven calls being received in three minutes.

The heat became more intense as the day progressed, the mercury rising several degrees higher hour by hour than it did yesterday, which was the hottest day of the year. The death list was more than doubled even in the morning and prostrations were continuous. An hour before noon the weather bureau had recorded a temperature of 91, 5 degrees hotter than at the corresponding hour yesterday. Five deaths had occurred up to that time.

Record Broken at Philadelphia.

Philadelphia, July 19.—Today's hot wave promises to be a recordbreaker for this summer. At 8 o'clock this morning the government thermometer on top of the postoffice building registered 85 degrees—9 degrees higher than at the same hour yesterday. The suffering among the poorer classes in the tenement district is intense. During last night hundreds of persons sought the roofs of their homes that they might catch a breath of aid and secure relief. The official forecast says there is little hope of an immediate break in the hot spell.

Thirty-One Are Prostrated in Chicago.

Chicago, July 19.—After 31 heat prostrations and ten of them had been during the hottest day up to date this summer, a breath of cool air relieved Chicago last night. The cool spell was short lived. The wind soon veered again and the heat was intense throughout the early hours. Hot weather was predicted for the latter part of the week. The maximum temperature of yesterday, 94 degrees, equaled the record of last summer, which, both by an odd coincidence, was made on the same date—July 17.

Bostonians Suffer From Heat.

Boston, July 19.—The heat which acquired renewed energy last night, continued today with prospects of nearing the record mark for the summer. During the night the mercury did not go below 70 and it began to rise with the dawn. By 10 o'clock it stood at 88 according to the weather bureau thermometers in various parts of the city, registered above 90 at the same hour. The humidity today was slightly below the normal and there was a light breeze.

One Death at Baltimore.

Baltimore, July 19.—Today is the hottest of the present summer so far, the thermometer having registered 92 degrees at 10 a. m. with the humidity at 51. There has been one death from the heat in this city and a few prostrations.

Oppressive at Pittsburg.

Pittsburg, Pa., July 19.—The oppressive heat wave continues in Pittsburg and vicinity today. The thermometer hovered around between 75 and 80 degrees all last night, making it the hottest night of the year. At 11 o'clock today the mercury had reached 85 degrees and was steadily rising.

Nebraska Woman Succumbs.

Lincoln, Neb., July 19.—Mrs. J. B. Pickrel died today as a result of the heat. Her husband went to his home with a railroad ticket which his wife was to use in traveling to a cooler place and found her dead.

THREE NEGROES ARE HANGED.

Tennessee Sheriff Executes Three Murderers in One Day.

Memphis, July 19.—Three negro murderers were hanged here today by Sheriff Frank T. Monverde and his deputies.

"Toots" Taylor was hanged for the murder of Sam Gaines committed in Memphis, Aug. 27, 1904. The two negroes had been involved in a fight over a woman. Taylor slipped up behind Gaines and shot him to death. Taylor was brought to trial last October and pleaded self-defense. The jury returned a verdict in five minutes of willful murder.

Wife murder was the crime which cost A. M. Milan his life. He shot his wife, Mattie Milam, dead while she was in the act of obeying his command to cook supper. The killing took place in a negro tenement in this city June 7, 1904.

The crime of Major Mills was the murder of his father in law, Alexander Gill, and was committed at the home of the latter in this city city January 3, 1905. Mills had quarreled with his wife, and she left him, going her father's home for protection. Mills followed her and her father took her part. Mills began a vigorous assault on his wife's father. Mills fired six shots from a revolver into the old man, killing him instantly. Mills was captured soon afterward and was tried and sentenced to be hanged.

Engineer Ran Past Signal.

Rochester, N. Y., July 19.—By the wreck of a freight car in the East Rochester yards of the New York Central today Engineer James Clark, of DeWitt, was fatally injured and died in the hospital a short time later. Fireman M. Flossey, of Buffalo, was scalded and a passenger, George White, a negro of Chicago, was slightly bruised and cut. The Chicago and Detroit special due here from the aest at 4 a. m., crashed into the freight car at the Culver street crossing and Engineer Clark and Fireman Flossey were caught in the wreckage. None of the other passengers except White was injured. The railroad officials blame Engineer Clark, who, they say, ran past a block signal.

Excursionist Loses Life.

Lexington, Ky., July 19.—News received here today says that the steamer Shamrock, lying about Valley View on the Kentucky river, while carrying a party of 50 excursionists up the river three miles from Valley View, ran into a rope stretched from a log boom last night. The rope swept Miss Nancy A. Carpenter, daughter of H. C. Carpenter, into the river and drowned her. The smoke stack was thrown down on George W. Hutchinson, superintendent of the Kentucky Poplar company, probably fatally injuring him. Five others were badly hurt.

Woman Brutally Murdered.

Decatur, Ala., July 19.—The lifeless and badly mutilated body of Mrs. Emmet Parnell, a white woman, aged 21, was found on the Southern railroad near Hillsboro, Ala. Her husband has been arrested, charged with murdering the woman. The couple quarreled at the depot at Trinity, Ala., last Saturday. Parkall accused his wife, who was in a delicate condition, of being unfaithful to him. They left together, going in the direction of Hillsboro. There is a strong feeling against Parkall.

THE STOKES-PASTOR WEDDING

Rich Young Man Weds a Poor Girl. A Love Match.

Stamford, Conn., July 19.—The wedding of Miss Rose Pastor to John G. Phelps Stokes, second son of Anson Phelps Stokes, which took place at noon today in St. Luke's Episcopal church at Noroton, was exceedingly modest in its apartments, although to Noroton people it was the social event of the season.

The ceremony was performed by Rev. Louis French, the rector of St. Lukes, assisted by the groom's brother, Rev. Anson Phelps Stokes, Jr., of New Haven, secretary of Yale university. There were no bridesmaids. Mrs. Henry Rauh, of Indianapolis, formerly Miss Myer, of Cleveland, was matron of honor. The ushers were his brothers, I. N. Phelps Stokes and Harold Phelps Stokes and his brothers in law, Robert Hunter and John Sherman Hoyt. The best man was Kellogg Durland, one of the youngest of the resident workers at the University settlement in New York.

The bride wore a simple dress of white mousseline de soie. Palms and daisies ware used in the church decorations.

Girl Indicted for Murder.

New York, July 19.—Bertha Caliche, the French girl indicted for murder in the first degree by the grand jury for the murder of Gendron, pleaded not guilty today and was remanded for trial. No attempt was made to secure an early trial for the girl, and she will have to remain in prison until the fall session. The girl, who says that for six years past Gendron made her lead an immoral life, and that she killed him to escape this slavery, looked very pale and wan when led back to prison. Sympathetic women who paid a lawyer to defend her during the preliminary examination have retained legal counsel for her during the coming trial.

Swam the Niagara Rapids.

Niagara Falls, N. Y., July 19.—Carlisle D. Graham, of this city, and William J. Glover, Jr., of Baltimore, Md., successfully swam the lower rapids of the Niagara river from the American side of the whirlpool to Lewiston. The distance of 4 miles was covered in 56 minutes by Glover. The start was made at 4:02 p. m. from Prat Rock, which is on the American side. The swimmers did not venture into the upper rapids where Captain Webb lost his life. Both men wore life belts and inflated rubber rings around their necks.

Chicago, July 19.—Shortly after a stormy interview with her husband, with whom she had not lived for several years, Mrs. Kate M. Cleary, well known in Chicago as a newspaper and magazine writer, has died suddenly of heart disease at the door of her home in a hotel. Her husband, M. T. Cleary, had called with two of their children.

MISS CLEM HAMPTON RETURNS FROM NORTH

Has Been in Attendance at National Educational Association.

FLORIDIANS ENJOYED VISIT

The Convention, Which Was Held at Asbury Park, Was a Great Success. Visitors Were Dined and Entertained Royally Everywhere.

Miss Clem Hampton of Gainesville, one of the most prominent of the women educators of Florida and at present chief clerk in the office of the State Superintendent of Public Instruction, returned Monday night from a delightful visit to a number of places in the North.

Miss Hampton attended the annual session of the National Educational Association at Asbury Park and Ocean Grove during the first week in July as one of the delegates from Florida and was re-elected to the office of State Director for Florida of the association.

The sessions of the convention were extremely interesting, said Miss Hampton, in speaking of the convention, and Florida was fortunate in having twenty-four representatives of the State's educational interests in attendance. Besides the delegates there were also a number of Florida people present at most of the sessions and they were greatly pleased with the hospitalities and courtesies extended to the official representatives of their State.

W. B. Dickerson, Superintendent of Public Instruction of Hillsborough county, was made a member of the nominating committee, and the Florida delegation was by no means overlooked in the interesting features of the program.

One of the most pleasant features of the convention, said Miss Hampton, was the entertainment of the Florida delegation by Mrs. Robert E. Peterson, one of Asbury Park's most charming and accomplished ladies. Mrs. Peterson and her sister, Miss Gottschalk, are sisters of Gottschalk, the celebrated composer.

Mrs. Peterson gave the Floridians a drive out to numerous places of interest and then tendered a musicale in their honor, which was a most enjoyable event.

The teachers of the city of New York gave a reception in honor of the visiting teachers and at least seven thousand attended. It was a grand affair and the Florida teachers greatly enjoyed the hospitality of the New York teachers. It was genuine Southern hospitality, said Miss Hampton, and nothing that could be done to entertain the visitors was left undone.

The visiting teachers were taken on excursions to various resorts and given a trip to Dreamland. The Florida teachers were enthusiastic over the pleasures afforded them through the courtesies of the New York teachers. Headquarters for the visitors were established at the famous Fifth Avenue Hotel, and from this grand old hostelry everything worth seeing in and about Greater New York was visited. Trolley car parties, theater parties and visits to every attraction in New York City and the nearby resorts were provided by the hosts, and Florida was there every time. But Dreamland has been the most discussed of all.

After the convention had adjourned, the Florida delegation scattered. Some of the members went to Maine, others to Connecticut and others to one place and another.

Miss Hampton made a trip up the Hudson and visited Mr. and Mrs. H. L. Armstrong, at Peekskill, where she was royally entertained. The Armstrongs are regular winter visitors to Florida and extended a warm welcome to Miss Hampton.

The next session of the National Educational Association will be held in San Francisco, and Miss Hampton hopes to be able to attend.—Times-Union.

AN OLD LANDMARK.

Aunt Caroline, One of the Faithful Old Mamas.

By the death of Aunt Caroline Davis, mention of which was made in The Sun of Tuesday, another landmark has been removed from our midst, and one by one they are departing for the beautiful shore, where all true and faithful servants have been promised sweet rest.

The writer has known Old Aunt Caroline ever since he was three years old, and knew her former master and mistress, Col and Mrs. Edward Lewis. When he first knew them they lived near Rockmount, S. C., where Sherman's army crossed the Catawba river. Colonel Lewis moved to Florida in 1852, and Old Aunt Caroline was brought with them as she was Mrs. Lewis' waiting maid and they were very devoted to each other.

Aunt Caroline's first husband was John Cloud and belonged to Dr. Cloud of Fairfield District, S. C., the father-in-law of General Earle, but after being separated she still remained single for several years. Her oldest son was named John, and was killed by the falling of the kitchen of the old Oak Hall, then standing where the government building is to be erected. One of her sons is Lawrence Davis, the baker, the other one living at Tampa.

The writer was very much surprised on seeing the notice of the death of the good old mama, for he always was glad to meet her and talk over old times, as he did just a few days ago. On being asked where she was stopping she said "with the children," meaning Mrs. Stringfellow and Mrs. Harper, as she always looked upon them as though they were her own.

I hope she may rest in peace, as she has spent a long life of usefulness, and when the last trump is sounded, may she be among the faithful, is the wish of the writer. J. D.

HEALTHY PLANTS

Require the Most Careful Attention as Well as Good Soil.

Did you ever see a rosebush which—despite the most beneficent environment of soil—of sunshine—and of atmosphere,—seemed never to achieve a healthy growth.

A ton of manure will not help a plant that has a canker eating out its heart.

You must destroy the cause before you can remove the effect.

You cannot cure Dandruff and Baldness by rubbing on hair lotions, and rubbing in vaseline, etc.

You must look to the cause of the trouble—it's a germ at the roots of your hair which causes it to fall out.

Newbro's Herpicide destroys the germ, and healthy hair is the sure result.

JOHN P. HESTER KILLS ONE MAN AND WOUNDS ANOTHER AT E INSTON

Postmaster Barron Seriously Wounded and Son Killed.

BAD FEELING LONG EXISTED

Between the Men, it is Said, Which Terminated Fatally—All Parties Prominent, and Tragedy Was a Great Shock to Evinston People.

Evinston was the scene of a tragedy at a late hour Wednesday afternoon in which were involved a trio of the most prominent citizens and business men of that section, in which W. O. Barron, postmaster and merchant, was seriously wounded, and his son, Watt Barron, was killed, by John P. Hester, a merchant of that place.

From the best information which could be obtained by telephone the shooting occurred in the little postoffice and store of Mr. Barron.

For several months, it is understood, Barron and Hester have not been on the best of terms, and recently, it is said, Hester reported Barron to the Postoffice Department at Washington for mismanagement of the affairs of the Evinston office. Wednesday afternoon Mr. Hester, who owns and conducts a mercantile establishment just across the railroad track from the Barron store and postoffice, sent a messenger for his mail. Postmaster Barron refused to deliver the mail without an order, and so informed the messenger, requesting him to return to Hester and secure a written order. Instead of complying with this request, it is said that Hester secured a shot gun from his store and proceeded to the postoffice, when the shooting occurred, the postmaster being wounded severely.

Watt Barron, son of the postmaster, who was superintending the loading of some watermelons, heard the report of the gun and started for the store. Just after he left the car, which was not more than fifty yards from the scene, he met Hester, who opened fire upon him with a pistol, killing him instantly.

Dr. Montgomery of Micanopy states that while the elder Barron is seriously wounded, the chances are good for his recovery with proper attention.

The affair has cast a gloom over the people of Evinston, as all parties connected are prominent and popular.

GONE TO REST.

Death of Miss Catherine Hill of Newberry on Friday Last.

On Friday morning, July 14th, 1905, after a long illness of typhoid fever, Miss Catherine, daughter of Mr and Mrs. W. B. Hill of Newberry, passed away in the 19th year of her age.

She had been a sufferer from this dread disease for twenty days, and notwithstanding that all that medical skill could render was done that her life might be spared, the end came at 8 a. m. on Friday.

Miss Catherine was a devoted Christian, being a steadfast member of Mt. Zion Baptist Church and highly esteemed by all who knew her, and the sympathy of the entire community is extended to the bereaved parents in their hour of sorrow in the loss of their dearly beloved daughter. May we all follow her noble example and surrender ourselves to His care, so that it can be said of us when called hence, "Gone to rest."

The funeral took place from the house at 2:30 p. m. on Saturday, Rev. J. E. Hodge officiating, and was attended by a large number of sorrowing relatives and friends. The interment took place in the Jonesville cemetery.

INTRODUCE GENERAL TAX BILL.

Bill to Disfranchise the Negro and Other Important Matter.

Atlanta, July 19.—The general tax bill for 1906 and 1907 was introduced in the house Monday by Mr. Wise, of Fayette, chairman of the ways and means committee, and read the first time.

It will be taken up by the ways and means committee at once, and reported at an early date.

The bill as introduced by Chairman Wise makes several changes in the measure that was passed last year. One of the most important of these relates to packing houses. The new bill puts a specific tax upon all packing houses and packing agencies, whether they are Georgia companies or belong to other states. The packing house agencies have secured a supreme court decision under which they can avoid the specific tax, because the tax had not been put on Georgia packing houses. By taxing the Georgia concerns as well as others, it is said the tax can be collected from all of them.

Mr. Russell, of Muscogee, introduced a bill providing for a Georgia exhibit at the Jamestown, Va., exposition in 1907.

Mr. Rose of Upson introduced his bill, the object of which is to disfranchise the negro.

This measure contains the well known grandfather clause similar to that adopted in Alabama and one or two other states. The bill was referred to the committee on constitutional amendments.

The house passed by unanimous vote the resolution by Mr. Kelly, of Glascock, making an appropriation of $27,580 to supply the deficite in the pension fund for 1905.

The four hundredth bill was introduced in the house today by Mr. Lumpkin, of Sumter. This breaks the record for the eighteenth day of the session by something like 40 or 50 bills.

In the Senate.

Senator Copeland's resolution, introduced Saturday, providing that members of visiting committees receive only their "per diem and actual traveling expenses to be paid on itemized statements," provoked some discussion in the senate and was finally referred to the committee on finance.

At present the law provides that members of visiting committees shall receive, besides their per diem, traveling expenses not to exceed $20.

CHOLERA INFANTUM.

Child Not Expected to Live from One Hour to Another, But Cured by Chamberlain's Colic, Cholera and Diarrhoea Remedy.

Ruth, the little daughter of E. N. Dewey of Agnewville, Va., was seriously ill of cholera infantum last summer. "We gave her up and did not expect her to live from one hour to another," he says. "I happened to think of Chamberlain's Colic, Cholera and Diarrhoea Remedy and got a bottle of it from the store. In five hours I saw a change for the better. We kept on giving it and before she had taken the half of one small bottle she was well." This remedy is for sale by all druggists.

Georgia Mob Looking For Negro.

Flowery Branch, Ga., July 19.—Miss Effie Light, 18 years old, daughter of T. O. Light, a prominent citizen of this town, was awakened by a huge negro climbing in her bed room window. The young lady's screams aroused the entire neighborhood and in a short time the streets were full of armed, angry men. Several negroes were arrested and afterwards released. The search is being continued today, but hope of apprehending the guilty negro is practically abandoned.

Foreigners Held at Quarantine.

New York, July 19.—The British steamer Indrani, detained at quarantine yesterday for examination for symptoms of bubonic plague among the crew, was allowed to proceed to her dock today under her own officers and a new crew. The regular crew, comprising 48 Chinamen and Lascars, were taken to Hoffman's island for observation. The Indrani came from Chinese and Japanese ports.

$12,000,000 in Back Taxes.

Louisville, Ky., July 19.—The hearing in the suits involving twelve million dollars in back taxes against the Southern Pacific railroad, which were filed recently by a state revenue agent was postponed until Tuesday. The alleged taxes are claimed to be due on bonds, stocks, locomotives, ships, rolling stock, etc., of 22 railroad corporations in various states from Louisville to California. It is claimed that the Southern Pacific is a Kentucky corporation, and has never made any return as required by law.

G. A. R. Commander Dies.

Boise, Idaho, July 19.—General W. W. Blackmar, commander in chief of the Grand Army of the Republic, died of intestinal nephritis. His wife was with him during his illness. The body will be embalmed and taken to the home of the family at Boston. The general arrived here on July 10 on a tour, during which he intended to visit Grand Army posts throughout the northwest. He was ill when he arrived and gradually failed. The seriousness of his condition was kept from the public at the request of his wife.

New York, July 19.—A comfortable night was passed by Senator William A. Clark, who is ill at his apartments from the effects of an operation for an abscess of the head. Dr. McKernon called at the senator's home early. He remained but a few moments and upon leaving there said there was no marked change in the patient's condition. The senator, he said, had passed a good night and was doing very well.

LEVY OF 20 MILLS MADE BY COUNCIL

The Levy Will be Divided Between General and Road Funds.

ROAD MACHINERY ORDERED

Contracts Were Presented and Formally Signed, and Shipment is to be Made at Once—Chairman Taylor Authorized to Purchase Flint.

A special meeting of the City Council was held Tuesday afternoon for the purpose of fixing the millage on assessment for the year, which resulted as follows: General revenue fund, 16 mills; bond fund, 4 mills, making a total of twenty mills.

At the conclusion of this business the council again took up the matter of the purchase of street building machinery, when the contracts for same were presented and formally signed.

The city means business when it comes to the building of good streets, and Chairman Taylor of the street committee was authorized to purchase 1,000 tons of flint rock, which purchase will be made through the lowest bidder.

As was stated in a recent issue of The Sun, the machinery comprises a ten-ton Kelly roller and harrower, a crushing machine and an electric motor, which power will be used in place of steam. This machinery will be shipped at once, and as soon as received work will begin. It is the purpose of the street committee to first repair University street, when the task of widening West Liberty street from Fifth street to the University grounds and constructing a first-class hard flint thoroughfare, will begin.

Chairman Taylor is enthusiastic, and is anxious to get to work.

From this terrible affliction I was rescued by Electric Bitters, which restored my health and strength, and now I can walk as straight as ever. They are simply wonderful." Guaranteed to cure stomach, liver and kidney disorders; at all drug stores; price 50c.

AN EDUCATIONAL BUGABOO.

Under the heading of "An Educational Crisis," The Florida Christian Advocate tries to convey the idea that our young men from the public schools will not be able to enter the State University without a course at Sutherland or some other preparatory school, and Sutherland is its first choice.

The fact is that the graduates of the high schools of the State, where the twelve grades are taught, can enter the University without examination, on their diplomas from the high schools. This was one of the strong points of the Buckman bill, the idea being to place the various high schools of the State on a higher plane, so that people of moderate means would not be compelled to send their sons away from home to fit them for the University.

Students in the high schools, in order to graduate, must pass the twelfth grade, where such schools are on the University list, and in such schools there is no such thing as "undergraduates," as diplomas are only issued to those who have passed the course of study, while a young man who leaves school before graduation is only given his standing at that time.

There are several schools in the State which do not feel able financially to add the necessary teachers to raise their standing, and to this end the new school law provides a semi-annual appropriation of primary school money from the State to aid them.

There may be a few high schools of the State that will not be put on the University list at once, as there will be some time required to arrange the course of study that will place them there. But the object of the new law is to have this matter so arranged, and should some of the smaller ones not be prepared to do this at once, such students can graduate from any nearby high school as foreign students, where the tuition will be but nominal, and fit themselves to enter the State University at small cost to themselves or their parents or guardians.

IMMIGRANTS WE WANT.

Why Florida should want Italian immigrants more than any other nationality is more than some people can understand. There are people of other countries that are preferable as citizens, being more congenial and of less fiery disposition than the Italian, who make better citizens and come here to make their homes, and are better workers than they in any place you put them. If the idea that they come from sunny Italy makes them better adapted to our climate, that whim should be abandoned at once, for you can take the Swedes and Danes that are found along the East Coast and you will find no more hardy people or more industrious than they, and they are not troubled in the least from the heat, at least no more than the people that come from warmer countries.

The Holland Dutch is another race that is most desired. They are as frugal and industrious as any, an intelligent and law-abiding class, minding their own business at all times, and wherever you see them they have schools and churches, and you seldom find one among them that is a reproach to any community. They are a neat and tidy people and their homes are noted for their proverbial comforts and flow of good cheer in all that goes to make home happy. Among the oldest settlers of Ohio and Pennsylvania they are to be found and wherever you find the Dutch settlements you will find the finest homes and farms in those States. Give us the honest Dutch, Swede and Dane immigrants, and when their children are grown up you have the best citizens we ever had in this country, who love their adopted home, because it gives them liberty to worship God according to the dictates of their own consciences, and an opportunity to own a home of their own where they can live in peace.

Catarrh Cannot be Cured

With local applications, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly on the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. Take Hall's Family Pills for constipation.

We have a farmer in this county who has solved the watermelon problem and will no doubt make his name famous in the years to come. Mr. F. W. Barron of Evinston has been improving on his variety grown until now he produces a very grade of melon that grows to such a mammoth size that the average colored man is unable to carry them very far without the aid of a horse and wagon. His largest ones this season weighed upwards of a hundred pounds.

M. Witte, the senior Russian peace plenipotentiary, does not seem to grasp the situation. He says that Russia would not submit to terms that would "wound her pride or impair her power." The idea in having the peace conference is to check the Japs from impairing her power. In nearly every engagement her power is "impaired" from one hundred up.

The people of Tallahassee are very fortunate in securing the State Female College, and there is only one difficulty liable to arise at Gainesville, and that is the keeping of our boys in the University at home. The young man that would not be won by such an attraction has no business attending a university.

Polk county commissioners have appropriated $2,000 for the State Fair exhibit of that county and will raise the amount if necessary.

Reward will be paid to any person who can find one atom of opium, chloral, morphine, cocaine, ether or chloroform in any form in any of Dr. Miles' Remedies.

This reward is offered because certain unscrupulous persons make false statements about these remedies. It is understood that this reward applies only to goods purchased in the open market, which have not been tampered with in any way.

Dr. Miles' remedies cure by their soothing, nourishing, strengthening and invigorating effects upon the nervous system, and not by paralyzing and weakening the nerves as would be the case if these drugs were used.

For this reason Dr. Miles' Anti-Pain Pills are universally considered the best pain remedy

"I have suffered for 25 years with severe pains in my head, heart and back, and have tried everything I could get and could not find any relief until I got a box of Dr. Miles' Anti-Pain Pills. I suffered as long as 12 hours at a time with such severe pains that I feared I would lose my mind. The Anti-Pain Pills gave me relief in from 10 to 20 minutes. I do not have to use Morphine any more. I wish you would publish this so that other sufferers may find relief."

Kidney Trouble Makes You Miserable.

Almost everybody who reads the newspapers is sure to know of the wonderful cures made by Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy.

It is the great medical triumph of the nineteenth century; discovered after years of scientific research by Dr. Kilmer, the eminent kidney and bladder specialist, and is wonderfully successful in promptly curing lame back, uric acid, catarrh of the bladder and Bright's Disease, which is the worst form of kidney trouble.

Dr. Kilmer's **Swamp-Root** is not recommended for everything but if you have kidney, liver or bladder trouble it will be found just the remedy you need. It has been tested in so many ways, in hospital work and in private practice, and has proved so successful in every case that a special arrangement has been made by which all readers of this paper, who have not already tried it, may have a sample bottle sent free by mail, also a book telling more about Swamp-Root, and how to find out if you have kidney or bladder trouble. When writing mention reading this generous offer in this paper and send your address to Dr. Kilmer & Co., Binghamton, N. Y. The regular fifty-cent and one-dollar size bottles are sold by all good druggists. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Fire Destroys Louisville Depot

Louisville, July 19.—The union passenger station at Tenth and Broadway, was destroyed by fire entailing a loss of over $350,000. The amount of insurance is not known. The fire was discovered about 9:30 o'clock on the top floor of the 4-story stone structure, and although every fire engine in the city except the reserves was on the scene in half an hour, the flames gained steadily and two hours after the start the building was eaten to a shell, only the walls being left standing. The fire occurred at a time when few trains were scheduled to arrive or depart, and only a small crowd of passengers was in the building.

The ascent was made in 20 minutes and 8 seconds. This was the best time made thus far in any contest.

JACKSONVILLE EXCURSION.

Ticket Agent Goodwin Sold Seventy-Five Tickets to Metropolis.

The excursion to Jacksonville from this city via the Atlantic Coast Line was what might properly be termed a "howling success," since Ticket Agent Goodwin sold seventy-five tickets for the same.

Reports from other sections are to the effect that the people all along the line took advantage of the exceedingly cheap rate, which will afford excursionists three days to remain in Jacksonville.

Dr. E. H. Armstrong, the well known eye specialist of Jacksonville who paid our city a visit a short time ago, is making a special return trip to Starke, Waldo, Gainesville, Alachua and Lake Butler in the interest of his already many patients, and to allow any others who wish his services to consult him. The Doctor will be assisted and represented by one of the leading specialists, Dr. E. F. Smith, whom he introduces and recommends to his patients and friends here as a man of the very highest ability, and assures them that full dependence may be placed in Dr. Smith's services. At the Commercial Hotel, Starke, July 20; Waldo House, Waldo, July 21; Brown House, Gainesville, July 22-23; Sheffield House, Alachua, July 24; Duncan House, Lake Butler, July 25.

Chas. S. Hill, civil engineer in the employ of the Cummer Lumber Company, has returned from a business trip to points in the West End. It will be remembered that Land Commissioner Steckert, Mr. Hill and a party of surveyors spent several weeks in the wilds of LaFayette county at the beginning of the summer. Upon one occasion Mr. Steckert came to the city and reported that he had killed a monster bear. Mr. Hill declares that his friend misrepresented the facts—that he (Hill) killed the bear, and that no credit whatever is due to the "brave but cautious" land commissioner.

Paul Reynolds, for many years a resident of this city, but who is now making his headquarters in Toledo, O., left yesterday for South Florida, after a couple of days spent with his friends here, all of whom were glad to see him. Mr. Reynolds is now holding a lucrative traveling position.

He has already secured thirty head of fine cattle and proposes to go into the business right, as he is confident there is money in stock raising.

The Pellett family will be gladly welcomed on their return as residents of this section.

JOHN P. HESTER KILLS ONE MAN AND WOUNDS ANOTHER AT EVINSTON

Postmaster Barron Seriously Wounded and Son Killed.

BAD FEELING LONG EXISTED

Between the Men, it is Said, Which Terminated Fatally—All Parties Prominent, and Tragedy Was a Great Shock to Evinston People.

Evinston was the scene of a tragedy at late hour Wednesday afternoon in which were involved a trio of the most prominent citizens and business men of that section, in which W. O. Barron, postmaster and merchant, was seriously wounded, and his son, Watt Barron, was killed, by John P. Hester, a merchant of that place.

From the best information which could be obtained by telephone the shooting occurred in the little postoffice and store of Mr. Barron.

For several months, it is understood, Barron and Hester have not been on the best of terms, and recently, it is said, Hester reported Barron to the Postoffice Department at Washington for mismanagement of the affairs of the Evinston office. Wednesday afternoon Mr. Hester, who owns and conducts a mercantile establishment just across the railroad track from the Barron store and postoffice, sent a messenger for his mail. Postmaster Barron refused to deliver the mail without an order, and so informed the messenger, requesting him to return to Hester and secure a written order. Instead of complying with this request, it is said that Hester secured a shot gun from his store and proceeded to the postoffice, when the shooting occurred, the postmaster being wounded severely.

Watt Barron, son of the postmaster, who was superintending the loading of some watermelons, heard the report of the gun and started for the store. Just after he left the car, which was not more than fifty yards from the scene, he met Hester, who opened fire upon him, killing him instantly.

Dr. Montgomery of Micanopy states that while the elder Barron is seriously wounded, the chances are good for his recovery with proper attention.

The affair has cast a gloom over the people of Evinston, as all parties connected are prominent and popular.

GONE TO REST.

Death of Miss Catherine Hill of Newberry on Friday Last.

On Friday morning, July 14th, 1905, after a long illness of typhoid fever, Miss Catherine, daughter of Mr and Mrs. W. B. Hill of Newberry, passed away in the 19th year of her age.

She had been a sufferer from this dread disease for twenty days, and notwithstanding that all that medical skill could render was done that her life might be spared, the end came at 8 a. m. on Friday.

Miss Catherine was a devoted Christian, being a steadfast member of Mt. Zion Baptist Church and highly esteemed by all who knew her, and the sympathy of the entire community is extended to the bereaved parents in their hour of sorrow in the loss of their dearly beloved daughter May we all follow her noble example and surrender ourselves to His care, so that it can be said of us when called hence, "Gone to rest."

The funeral took place from the house at 2:30 p. m. on Saturday, Rev. J. E. Hodge officiating, and was attended by a large number of sorrowing relatives and friends. The interment took place in the Jonesville cemetery.

AN OLD LANDMARK.

Aunt Caroline, One of the Faithful Old Mamas.

By the death of Aunt Caroline Davis, mention of which was made in The Sun of Tuesday, another landmark has been removed from our midst, and one by one they are departing for the beautiful shore, where all true and faithful servants have been promised sweet rest.

The writer has known Old Aunt Caroline ever since he was three years old, and knew her former master and mistress, Col and Mrs. Edward Lewis. When he first knew them they lived near Rockmount, S. C., where Sherman's army crossed the Catawba river. Colonel Lewis moved to Florida in 1852, and Old Aunt Caroline was brought with them as she was Mrs. Lewis' waiting maid and they were very devoted to each other.

Aunt Caroline's first husband was John Cloud and belonged to Dr. Cloud of Fairfield District, S. C., the father-in-law of General Earle, but after being separated she still remained single for several years. Her oldest son was named John, and was killed by the falling of the kitchen of the old Oak Hall, then standing where the government building is to be erected. One of her sons is Lawrence Davis, the bake , the other one living at Tampa.

The writer was very much surprised on seeing the notice of the death of the good old mama, for he always was glad to meet her and talk over old times, as he did just a few days ago. On being asked where she was stopping she said "with the children," meaning Mrs. Stringfellow and Mrs. Harper, as she always looked upon them as though they were her own.

I hope she may rest in peace, as she has spent a long life of usefulness, and when the last trump is sounded, may she be among the faithful, is the wish of the writer. J. D.

Secretary Wilson Has Important Letter On File.

REPORT WAS TAMPERED WITH

It It Asserted that the Communication Gives In Detail the Manner in Which the Government Report Was Falsified.

New York, July 19.—A letter is now in the hands of Secretary of Agriculture Wilson, says the Herald, the contents of which have been sworn to, relates in details, methods said to have been pursued in the alleged purports to expose the entire inner workings of the plans. No information is vouchsafed by the Herald to the writer of the letter, but he is said to be one of the men whose connection with the affair is a matter of public knowledge but whose identity is withheld for the present. The assertions contained in the letter, continues the Herald, relate in minute detail the precise manner in which the official report was tampered with; who took part in the operation, to what extent the fraud was perpetuated and where and how the proofs of the charges in the letter may be.

Richard Cheatham and Harvie Jordan, respectively secretary and president of the cotton growers' association who, with active co-operation of several New York men, have conducted a private investigation here, are now in Washington where they expect to confer with Secretary Wilson over the contents of the letter. That the letter is accurate in its information is declared beyond doubt. An outline of its contents has been given to Morgan Beach,, district attorney for the District of Columbia, one of the officials employed to take up the investigation that brought Mr. Beach to New York Monday to enter into consultation with the counsel retained by the Southern Cotton Growers' association, and take over the evidence they had discovered.

Stamford, Conn., July 19.—The wedding of Miss Rose Pastor to John G. Phelps Stokes, second son of Anson Phelps Stokes, which took place at noon today in St. Luke's Episcopal church at Noroton, was exceedingly modest in its apartments, although to Noroton people it was the social event of the season.

There were no bridesmaids. Mrs. Henry Rauh, of Indianapolis, formerly Miss Myer, of Cleveland, was matron of honor. The ushers were his brothers, I. N. ALACHUA COURT SEEMS VERY SLOW

No Decision Has Yet Been Rendered in Sessions Murder Case.

IN SESSION SINCE MONDAY

Court Being Conducted Behind Closed Doors, and None But Those Connected With Same Are Allowed Entrance—Little Excitement at Alachua.

From Wednesday's Daily Sun.

While no definite particulars as regards evidence in the killing of young Lou Sessions at Old Newnansville some time during Saturday night have been learned, parties from Alachua state that a young white man, N. Slaughter, and two negroes, Lewis Sullivan and Sam Jackson, have been arrested in connection with the case.

Just what time the killing occurred is not known. About 10 o'clock Sunday morning a colored man went to the home of Robert Davis, Newnansville, and told Mr. Davis that a man was lying drunk or sick in the road a few rods in the rear of his (Davis') home. Mr. Davis, in company with Mr. Love and the negro, went to the scene, when they recognized Sessions and discovered that he had been murdered.

A coroner's jury was empanelled and sat upon the case Sunday afternoon. Monday, the defendants were arraigned before Justice Caswell at Alachua. The decision of the court has not yet reached this city.

An Alachua Report.

Alachua, July 18.—The trial of N. Slaughter, charged with the murder of Lou Sessions, is still on. The trial is being heard before Judge Caswell and has been in progress since Monday afternoon at 2 o'clock. No one but those chiefly connected with the case are allowed in the court room, hence it is impossible to learn how the trial is progressing.

A great many people are here to attend the trial, but there is very little excitement. It is thought probable the trial will close tonight, but the outcome cannot be forecasted.

N. SLAUGHTER WAS RELEASED

After Preliminary, Evidence Not Sufficient to Hold Him.

WAS SUSPECTED OF MURDER

The Hearing Was Conducted Privately. Only Those Directly Interested and Witnesses Being Admitted, and Considerable Dissatisfaction Exists.

From Thursday's Daily Sun.

Alachua, July 19.—The trial of N. Slaughter, arrested on suspicion of the murder of Lou Sessions, was concluded in Justice Caswell's court Tuesday night, after occupying nearly two days, and the suspect was released, as the evidence was not sufficient to hold.

The evidence has not been made public, and a good deal of disappointment is the result.

Slaughter Rearrested.

Not content with the finding of the coroner's jury in the case, P. Sessions, father of Lou Sessions the murdered man, caused a warrant to be issued for Slaughter and he was rearrested by Deputy Sheriff Granger at his father's farm, where the officer found him engaged in pulling fodder. Slaughter took his arrest cooly. He was brought to this city this morning and placed in prison and a preliminary hearing will be given Saturday.

Attorney J. M. Rivers is representing Slaughter.

The orange groves at Sharpes City Point, Rockledge, Bonaventure and Merritt's Island have a a fair crop, but not as large as last year. The trees as a rule, are in splendid condition so that the fruit will be of the very best quality.

LAND OF THE SKY.

Interesting Letter from the Summer Resort of Saluda.

Editor Sun: Thinking a word from the cool mountains of North Carolina might be of interest to your readers, who are now sweltering, I know, in the heat of dear old Florida, I will write a short sketch of Saluda. This little "burg" is situated in the very heart of the Blue Ridge Mountains, thirty-five miles south of Asheville, surrounded on all sides by magnificent mountains, and is the resort of visitors from every State in the Union and is unusually attractive during the summer season, not only on account of the beautiful scenery, lovely drives and walks and delightful climate, but also on account of the cosmopolitan people one meets, their sociability, refinement and intelligence.

It has two large hotels, the Charles and Melrose Inn, and numerous boarding houses, all of which are taxed to their utmost capacity during the summer season. Hack and horse hire is cheap and riding and driving is much indulged in. A large number of cottages are owned by residents of Charleston and the low country of South Carolina, and also of Columbia, which are occupied by their families during the season. Many are owned also by residents of other States—Georgia and Florida.

Col. S. C. Boyleston of Jacksonville has a lovely place here. There are many Florida people here now. Among them I note Mrs. John Taylor at the Charles, Mrs. Pacetti of St. Augustine, Rev. Mr. Blackburn of Fernandina, and Capt. and Mrs. A. R. Elmore of Gainesville, and Mrs. Thos. W. Chesnut and daughter, Miss Ellen, also of that city. Mrs. Elmore has leased for the season the lovely Hane cottage, with beautiful grounds, a green, grassy lawn, well shaded with oak, chestnut, hickory and spruce pine, with a magnificent view of the surrounding mountains, and has opened it to summer boarders.

The principal article of food here is "chicken." Your correspondent saw a country wagon load of them—over two hundred—sold to one man this morning for nineteen cents each. Mountain beef and mutton, the best country butter and eggs and fine fruits and berries of every description, and milk in abundance, are daily offered at your door.

This is a "dry" county and "mountain dew" is consequently inaccessible nearer than Asheville. There are three mail trains each way daily and we get the Charleston, Columbia, Atlanta and Asheville dailies the same day of issue. It is delightfully cool here now and a blanket at night is quite comfortable.

I must not forget to congratulate Gainesville on having secured the University. She certainly deserves it, and we Floridians up here rejoice with you. It was a well-deserved tribute paid Major W. R. Thomas, Col. Bob McNamee and your other plenipotentiaries in the magnificent reception tendered them by your citizens on their return from the seat of war. More anon.

Yours truly,
GAINESVILLIAN.

Feel Impending Doom.

The feeling of impending doom in the minds of many victims of Bright's disease and diabetes has been changed to thankfulness by the benefit derived from taking Foley's Kidney Cure. It will cure incipient Bright's disease and diabetes and even in the worst cases gives comfort and relief. Slight disorders are cured in a few days. "I had diabetes in its worst form," writes Marion Lee of Dunreath, Ind. "I tried eight physicians without relief. Only three bottles of Foley's Kidney Cure made me a well man." Sold by J. W. MEMORIAL FUND

To be Raised by the Confederate Veterans and Their Sons.

The following resolutions were unanimously adopted at the Louisville Convention of United Confederate Veterans, held in June last:

Whereas, At our Reunion of 1904, our federation turned over to the Sons the sacred duty of raising the funds for the Memorial to the Women of the Confederacy; and

Whereas, In so doing we never relinquish our deep and abiding love for the cause, or our intention to aid and assist it by every means in our power; and

Whereas, We have clearly shown this by our appointment of a committee to cooperate, and by the work which this committee and many other Veterans in all parts of the South have done during the past year; and

Whereas, It will ever be our most earnest desire to see this tribute paid to our glorious women, and we are most anxious to further cooperate with and give substantial aid to our Sons in the performance of this sacred duty; therefore be it

Resolved, 1st. That each Camp of the United Confederate Veterans, immediately after the adjournment of this convention and the return home of its delegates, shall appoint a committee to actively canvass its respective community to raise funds for this Memorial to the Women of the Confederacy, to which noble, worthy and just object this federation has repeatedly and solemnly pledged itself and its comrades.

2d. That in case any Camp does not take action within one month by appointing this committee, it shall then become the duty of its Commander to make appointment of such committee. If no action is then taken by the Commander, any member of the Camp who is enthused with that high sense of his duty to this holy cause and desires to honor our Godlike women, is urged to personally take charge of the matter, secure the endorsement of his local Camp or its officers and make such collections as he can from his community.

3d. That all funds collected under resolutions one and two shall be deposited in some home bank—at interest—to the credit of the Chairman of the United Confederate Veterans Committee of Cooperation, (Gen. C. Irvine Walker, Charleston, S. C.) and that he shall be promptly advised of such deposit.

4th. That the above resolutions are not intended to be obligatory upon such Camps as have already taken similar action or have already contributed to this fund $50 or more.

5th. That each Camp is urged to endeavor to raise from its community, as its quota, at the very least, the sum of $50.

6th. That all Camps shall complete this work by January 1st, 1906, and on that date make a report of the results achieved to the Chairman of our Committee of Cooperation, General C. Irvine Walker, Charleston, S. C.

MUCH BUILDING CONTEMPLATED

The Municipal Improvements, the Erection of University and Private Buildings and Other Matters, Will Attract People Here.

And real estate continues to move—especially westward, since the University of Florida has been located in that section. There is no section of the city, however, where real estate is not desirable, and those who own property and desire to sell experience no trouble in getting rid of their belongings in this direction.

The Sun made mention Sunday of a valuable deal which had been made to J. R. Fowler of Lennon, which included the transfer of a desirable building lot on the corner of Alachua and Palmetto avenues, stating that Mr. Fowler proposed at an early date to erect a handsome residence thereon.

There were two other deals on Saturday, though they were not made public until Monday. C. A. Colclough purchased from Robert McClellan a tract of five acres at Green Sink, immediately adjoining the new University grounds, which it is understood brought a good figure. T. B. Ellis sold the same day to W. N. Wilson, immediately adjoining this property, a fifteen-acre tract. Both tracts are very valuable, especially owing to their close proximity to the University grounds, and the purchasers intend to improve the same by erecting cottages for rental purposes.

While The Sun cannot at present disclose the information, it is learned upon good authority that a ten-acre tract situated on Liberty street immediately north of the University grounds has been purchased by a wealthy gentleman from South Florida who will move his family here, and who proposes to erect a $12,000 home and beautify the grounds in proportion.

While Gainesville has enjoyed prosperity all along, it is assured that the city is just now on the eve of a season of prosperity which will increase the size and population of the city from fifty to seventy-five per cent within the next twelve months. The great amount of public improvements and building promises to attract a large number of people here, which naturally means the distribution of considerable money.

WILL LOOK AFTER BOARD.

Board of Trade Appoints Committee to Entertain Educational Visitors.

At a recent meeting of the Gainesville Board of Trade, which was well attended, the matter of looking after the comfort of the visiting members of the Board of Education and the Board of Control, collectively and individually, was discussed, and the following committee was appointed to serve permanently for this purpose:

Senator H. H. McCreary, W. N. Wilson, Perry M. Colson, A. M. Cushman, J. Harrison Hodges, Dr. J. F. McKinstry, Jr., Marcus Endel, L. C. Lynch, T. F. Thomas and John B. Dell.

The selection was a good one, and it is needless to assure the people of Gainesville that the members of the boards will be well cared for when visiting the city.

REPLY TO DR. KELLEY.

The Discussion of Prof. Ormond Brought to a Close.

Editor Sun: Replying to Dr. Kelley's "open letter" of recent date I beg to assure that gentleman of my appreciation of his advice so kindly given, and his high (?) sentiments so freely expressed. But since, as I stated in my former article, I am not making a personal fight on Dr. Kelley, and since he has seen fit to place the discussion on that plane, I must withdraw from it out of self-respect.

Were I to express my personal and political opinion of Dr Kelley, as he has of me, the article would not look well in print. I charged the genial Doctor with prejudiced partiality, and since he has not attempted to clear himself my purpose is accomplished. As to the "sacred institutions and customs," which he says I am violating, by teaching as principal of a faculty of white teachers, a training school for colored teachers, I have only to say that they have likewise been violated by Sheats, Holloway, Bucholtz, Murphree, Guilliams, Lynch, Yocum, Miss Clem Hampton, Mrs. Hamilton, and several others as far my intellectual superiors as I am Dr. Kelley's. If this be a crime, Dr. Kelley is likewise guilty in superintending negro schools. Were I afraid of becoming "defunct," the success of those who have preceded me in this work would be a source of consolation and encouragement.

With apologies to Dr. Kelley, the readers of The Sun, and all others to whom this discussion has been tiresome, I remain, Respectfully,

J. A. ORMOND.

A Religious Wave Strikes That Town. Other News of Personal Interest.

Newberry, July 17.—Our people are on the road to prosperity, both spiritual and temporal. We now have a well organized Baptist church with something like twenty or thirty members. Last month Brother Crumpton conducted a protracted meeting for a week, preaching every evening to a large and attentive congregation. During this meeting five joined by letter and many are joyous over this beginning and hopeful of many more to be added in the near future. We enjoyed listening to two sermons preached by the pastor last Sunday. His morning subject was "The Parable of the Sower," and in the evening "The Lord's Supper." After the sermon the table was spread and the communion followed in an impressive way.

LEVY OF 20 MILLS MADE BY COUNCIL

The Levy Will be Divided Between General and Road Funds.

ROAD MACHINERY ORDERED

Contracts Were Presented and Formally Signed, and Shipment is to be Made at Once—Chairman Taylor Authorized to Purchase Flint.

A special meeting of the City Council was held Tuesday afternoon for the purpose of fixing the millage on assessment for the year, which resulted as follows: General revenue fund, 16 mills; bond fund, 4 mills, making a total of twenty mills.

At the conclusion of this business the council again took up the matter of the purchase of street building machinery, when the contracts for same were presented and formally signed.

The city means business when it comes to the building of good streets, and Chairman Taylor of the street committee was authorized to purchase 1,000 tons of flint rock, which purchase will be made through the lowest bidder.

As was stated in a recent issue of The Sun, the machinery comprises a ten-ton Kelly roller and harrower, a crushing machine and an electric motor, which power will be used in place of steam. This machinery will be shipped at once, and as soon as received work will begin. It is the purpose of the street committee to first repair University street, when the task of widening West Liberty street from Fifth street to the University grounds and constructing a first-class hard flint thoroughfare, will begin.

Chairman Taylor is enthusiastic, and is anxious to get to work.

MISS CLEM HAMPTON RETURNS FROM NORTH

Has Been in Attendance at National Educational Association.

FLORIDIANS ENJOYED VISIT

The Convention, Which Was Held at Asbury Park, Was a Great Success. Visitors Were Dined and Entertained Royally Everywhere.

Miss Clem Hampton of Gainesville, one of the most prominent of the women educators of Florida and at present chief clerk in the office of the State Superintendent of Public Instruction, returned Monday night from a delightful visit to a number of places in the North.

Miss Hampton attended the annual session of the National Educational Association at Asbury Park and Ocean Grove during the first week in July as one of the delegates from Florida and was re-elected to the office of State Director for Florida of the association.

The sessions of the convention were extremely interesting, said Miss Hampton, in speaking of the convention, and Florida was fortunate in having twenty-four representatives of the State's educational interests in attendance. Besides the delegates there were also a number of Florida people present at most of the sessions and they were greatly pleased with the hospitalities and courtesies extended to the official representatives of their State.

W. B. Dickerson, Superintendent of Public Instruction of Hillsborough county, was made a member of the nominating committee, and the Florida delegation was by no means overlooked in the interesting features of the program.

One of the most pleasant features of the convention, said Miss Hampton, was the entertainment of the Florida delegation by Mrs. Robert E. Peterson, one of Asbury Park's most charming and accomplished ladies. Mrs. Peterson and her sister, Miss Gottschalk, are sisters of Gottschalk, the celebrated composer.

Mrs. Peterson gave the Floridians a drive out to numerous places of interest and then tendered a musicale in their honor, which was a most enjoyable event.

The teachers of the city of New York gave a reception in honor of the visiting teachers and at least seven thousand attended. It was a grand affair and the Florida teachers greatly enjoyed the hospitality of the New York teachers. It was genuine Southern hospitality, said Miss Hampton, and nothing that could be done to entertain the visitors was left undone.

The visiting teachers were taken on excursions to various resorts and given a trip to Dreamland. The Florida teachers were enthusiastic over the pleasures afforded them through the courtesies of the New York teachers. Headquarters for the visitors were established at the famous Fifth Avenue Hotel, and from this grand old hostelry everything worth seeing in and about Greater New York was visited. Trolley car parties, theater parties and visits to every attraction in New York City and the nearby resorts were provided by the hosts, and Florida was there every time. But Dreamland has been the most discussed of all.

After the convention had adjourned, the Florida delegation scattered. Some of the members went to Maine, others to Connecticut and others to one place and another.

Miss Hampton made a trip up the Hudson and visited Mr. and Mrs. H. L. Armstrong, at Peekskill, where she was royally entertained. The Armstrongs are regular winter visitors to Florida and extended a warm welcome to Miss Hampton.

The next session of the National Educational Association will be held in San Francisco, and Miss Hampton hopes to be able to attend.—Times-Union.

The Czar is threatened with being deposed. He may be lucky if he gets off that easy.

There is trouble brewing among the Sioux Indians. It is said they are buying automobiles.

It looks as though the cotton growers were "bulling" the market to get big prices for their last year's crop.

Thirteen deaths from heat in New York City in one day. The thermometer reached a maximum of 85 degrees.

The smaller the country the more revolutions they can make in a given time. Norway will be an illustration.

Hon. Robert S. Phillips of Tampa, it is stated, will be a candidate for Congress to succeed Hon. S. M. Sparkman.

At last they have found something to astound the people of Coney Island. Several were shocked by lightning a few days ago.

The United States mints are busy making money for our dependencies. It is nice to have some one supply you in ready cash.

The deaths from heat in New York alone in one day will exceed those from all diseases in the whole State of Florida for a week.

The moaning of the tide may be sweet music to some; but when the tied is a measly canine in a neighbor's back yard, it is different.

The cattle industry of South Florida is assuming greater proportions very rapidly, and when the timber is removed from the land there will be cattle to take its place and pay a good profit.

President Brown of the Tampa Mid-Winter Fair is in New York booking attractions. He will have the best things going and all classes may expect to see something worth seeing when they go to the fair.

The crop report issued by the State Department of Agriculture shows a good average of field crops throughout the State. Cotton, upland, is 82; Sea Island cotton, 86; corn, 90; sugar cane, 88. Many other crops show an equally high per cent.

Let the mantle of charity fall gently about Uncle John D. Rockefeller. He was so impressed with the sweet voice of a poor boy in a Cleveland Sunday school that he will pay for having his voice cultivated and support his widowed mother during the time.

The hotels and boarding houses in Portland, Oregon, have got the idea that they are the whole thing in the Lewis and Clark Exposition, and have even raised the prices on their regular boarders so high that they are obliged to take to tents in which to live.

A Breathitt county (Kentucky) man walked into church and said he was the best man in the house. The worshippers dropped their Bibles and came to "present arms" and two men were shot. The sheriff landed the shooter, John Miller, in jail before the mob could lynch him.

AN EDUCATIONAL BUGABOO.

Under the heading of "An Educational Crisis," The Florida Christian Advocate tries to convey the idea that our young men from the public schools will not be able to enter the State University without a course at Sutherland or some other preparatory school, and Sutherland is its first choice.

The fact is that the graduates of the high schools of the State, where the twelve grades are taught, can enter the University without examination, on their diplomas from the high schools. This was one of the strong points of the Buckman bill, the idea being to place the various high schools of the State on a higher plane, so that people of moderate means would not be compelled to send their sons away from home to fit them for the University.

Students in the high schools, in order to graduate, must pass the twelfth grade, where such schools are on the University list, and in such schools there is no such thing as "undergraduates," as diplomas are only issued to those who have passed the course of study, while a young man who leaves school before graduation is only given his standing at that time.

There are several schools in the State which do not feel able financially to add the necessary teachers to raise their standing, and to this end the new school law provides a semi-annual appropriation of primary school money from the State to aid them.

There may be a few high schools of the State that will not be put on the University list at once, as there will be some time required to arrange the course of study that will place them there. But the object of the new law is to have this matter so arranged, and should some of the smaller ones not be prepared to do this at once, such students can graduate from any nearby high school as foreign students, where the tuition will be but nominal, and fit themselves to enter the State University at small cost to themselves or their parents or guardians.

THE SPIRIT OF LIBERTY.

Of all those who have made a study of the corporation problem it seems to us that United States Judge Grosscup reaches nearest the ideal in his discussion of the subject, says The Wall Street Journal. The ideal is not the destruction of the corporation, because of the evils which have developed in connection with its organization and conduct, but its preservation on account of the immense economic efficiency of which it is capable, and at the same time its rescue from autocratic or oligarchical control, making it truly republican in spirit as in form.

The spirit of the American people at this time is not the spirit of revenge. It is not the spirit of hatred. It is not the spirit of the destroyer. It aims not at the overthrow of property or of the social order. It is the spirit of liberty.

Judge Grosscup in his address before the Ohio Bar Association this week puts the ideal clearly to the front. "What creates our problem," he says, "is that under present corporate policies the instinct of independent manhood finds no field for exercise." He declares that the wish for a career, for individual independence, for some share of the world's inheritance, this is a part of human nature. What is wanted is to "peopleize the ownership of the corporation," to use a phrase employed by Judge Grosscup. Such a consummation as this cannot well be brought about in an hour or a day, or even in a year, or by any one legislative act, but our whole energies as a people, and our whole policy as a government should be directed to bring this about.

BUILDING MATERIAL.

The demand for building material throughout the country at the present time exceeds any time in the history of the country. A few years ago brick and lumber supplied the demand, with the exception of granite and a small amount of other building stone. The brick used were made of clay and there were plenty to supply the needs of all. Now we have the sand brick and the building stone made of Portland cement, and in many instances building interests are kept back from lack of material.

In this State the saw and planing mills are taxed to their utmost capacities to keep up with orders for lumber, and it would seem that in a few years the supply of timber would be exhausted.

In the lumber districts of the North trees that were considered worthless a few years ago are being worked up into lumber, band saws being used, so that the narrow cuts these saws make will save all that is possible, which is one board in eight in sawing inch stuff.

In the cities where high buildings are erected, so far this year the demand for structural steel exceeds that of the corresponding period of last year by at least 100 per cent, and the mills engaged in the rolling of heavy structural work find it almost impossible to make deliveries on specified dates.

With our rapid growth it is evident that we have room for all who come here, if the material for buildings to accommodate them can be supplied fast enough.

LOCAL PAPER FIRST.

Hearst's Chicago American of a recent issue contained the following editorial, which has created no little comment on the part of the press generally because of the fact that it shows a spirit of fairness which does not always characterize The American's editorials. It says:

"It would be a misfortune to the country if the few big papers in the big cities should interfere seriously with the publication of the valuable and intelligent local newspapers—for upon these local newspapers the welfare of the country very largely depends. The metropolitan daily cannot possibly know the needs of the various localities and small cities. Only the local newspapers can protect local needs and influence local opinion. Of course we are very glad to have as many people as possible read The Chicago American in the big cities and the little cities. But we hope that in every small town and every village there will be enough intelligence and public spirit on the part of the local inhabitants to support earnestly and enthusiastically the best local newspaper, giving encouraging approbation and a good living to the local editor, who alone can represent and defend justice and public spirit among his neighbors. The man is unfortunate who cannot afford to take two newspapers at today's prices. He who can afford only one newspaper, in our opinion, should display his sense of duty to his locality by taking the local newspaper."

The people of Tallahassee are very fortunate in securing the State Female College, and there is only one difficulty liable to arise at Gainesville, and that is the keeping of our boys in the University at home. The young man that would not be won by such an attraction has no business attending a university.

If, as General Sherman said, "War is hell," what must the railroad accidents be? During the months of January, February and March, 1905, 232 persons have been killed and 3,713 injured in railroad accidents.

When the peace envoys left Tokio they were cheered. When the Russian envoys left no one knows. They got out quietly to avoid the bombs.

Polk county commissioners have appropriated $2,000 for the State Fair exhibit of that county and will raise the amount if necessary.

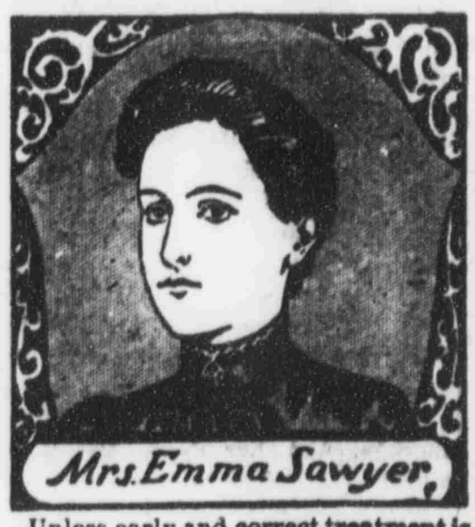
KIDNEY TROUBLES

Increasing Among Women, But Sufferers Need Not Despair

THE BEST ADVICE IS FREE

Of all the diseases known, with which the female organism is afflicted, kidney disease is the most fatal, and statistics show that this disease is on the increase among women.



Unless early and correct treatment is applied the patient seldom survives when once the disease is fastened upon her. Lydia E. Pinkham's Vegetable Compound is the most efficient treatment for kidney troubles of women, and is the only medicine especially prepared for this purpose.

When a woman is troubled with pain or weight in loins, backache, frequent, painful or scalding urination, swelling of limbs or feet, swelling under the eyes, an uneasy, tired feeling in the region of the kidneys or notices a brick-dust sediment in the urine, she should lose no time in commencing treatment with Lydia E. Pinkham's Vegetable Compound, as it may be the means of saving her life.

For proof, read what Lydia E. Pinkham's Vegetable Compound did for Mrs. Sawyer.

"I cannot express the terrible suffering I had to endure. A derangement of the female organs developed nervous prostration and a serious kidney trouble. The doctor attended me for a year, but I kept getting worse, until I was unable to do anything, and I made up my mind I could not live. I finally decided to try Lydia E. Pinkham's Vegetable Compound as a last resort, and I am to-day a well woman. I cannot praise it too highly, and I tell every suffering woman about my case." Mrs. Emma Sawyer, Conyers, Ga.

Mrs. Pinkham gives free advice to women; address in confidence, Lynn, Mass.

A DIFFERENT VERSION.

J. H. Stark Claims That Nelson Was the Aggressor in Altercation.

Editor Sun: In your issue of July 13 appeared an article under the head of "Nelson in Trouble." Please allow me space to correct this most gross misstatement of facts. I am a subscriber to your paper and have been for years, and cannot believe that knowingly you would permit the publication of such an untruth to gratify the malice of Nelson, at whose instigation the article must have been written.

Now, the facts in the case are these: There had been a little argument and cutting about a cow previous to the shooting, and not after, as Nelson states, in which he was the aggressor and cut me first. After a little we were parted and, in company with my family and some friends, started home. Nelson lives on the west side of Campville, but instead of going home after the trouble he proceeded to his father's house, the east side of town, in the direction of my home, procured a gun and cut off my retreat. The first notice I had of trouble was when I saw Nelson with his gun raised to his shoulder to fire, ordering me to stop. My wagon was loaded with women and men, and I fired at him fearing that he would kill some of us. After the shooting he got down from the horse and ran and we never got near enough to harm him after the shooting and did not try to. Why should we go to Nelson's house and tell his father that we had murdered him when we knew he was alive? In either case it would have been the work of a fool. We understand Nelson's little game. I am to have a hearing next Wednesday and he thinks that little piece will influence the court and jury, but he is mistaken.

Asthma Sufferers Should Know This.

Foley's Honey and Tar has cured many cases of asthma that were considered hopeless. Mrs. Adolph Buesing, 701 West Third St., Davenport, Iowa, writes: "A severe cold contracted twelve years ago was neglected until it finally grew into asthma. The best medical skill available could not give me more than temporary relief. Foley's Honey and Tar was recommended and one fifty-cent bottle entirely cured me of asthma which had been growing on me for twelve years. If I had taken it at the start I would have been saved years of suffering." [illegible]

SANTA FE FARDEL.

Crop Report and School Notes—The River Rising—Personal.

Santa Fe, July 17.—The watermelon growers are through shipping here. They shipped about one hundred carloads from this point. While the returns were not what they desired, they express themselves as being satisfied.

The corn crop is an average here, though it was injured greatly by the drouth; especially the early planting cotton is being greatly injured by the recent heavy rains. Shedding is reported from all points. Potatoes are looking well. There is a larger area planted than usual this year.

R. H. Holstein and family are visiting relatives in South Carolina. They expect to extend their visit until August.

Mrs. W. A. Jones of Madison, Ga., who has been visiting relatives here, will return home today.

Miss Alma Blitch left for Seabreeze today. She will accompany Mr. O. M. Futch and family of Alachua. They expect to be gone two weeks or a month.

The people of all shades and colors are rejoicing over the great victory won by Gainesville. Gainesville and Alachua county should be proud of W. R. Thomas. He has proven that he is not one of the doubting Thomas'.

It is calculated to make one tired to watch how ready some of those in this county, who, after pawing the ground and raising dust in the last election, because one Booker Washington was invited here, accepted the position to teach a negro school. Shame! Shame!

The public school summer term, which is being taught by Prof. W. E. Bell, is a success. The enrollment is larger than was expected—too many for one teacher. The patrons are well pleased with Prof. Bell and are giving him their unanimous support.

The Santa Fe river is on a boom. It is higher than it has been for two years.

Grandpapa Futch was taken ill with acute indigestion last night. Dr. Roberts of LaCrosse is attending him. He is somewhat better this morning.

Baseball Players and Foot Racers!

Louis J. Kruger, ex-champion long distance foot racer of Germany and Holland, writes Oct. 27, 1901: "During my training of eight weeks' foot races at Salt Lake City, in April last I used Ballard's Snow Liniment to my greatest satisfaction. Therefore, I highly recommend Snow Liniment to all who are troubled with sprains, bruises or rheumatism." 25c, 50c and $1. Sold by W. M. Johnson.

Death of Mrs. Johnson.

Information has been received in this city of the death of Mrs. Johnson, which sad event occurred a few days ago at her home in Columbus, Ga.

Deceased was a member of one of the oldest families in Georgia. She was a noble, Christian lady, and a great church worker during her active life.

Deceased was the mother of U. H. Johnson, one of the popular conductors of the Atlantic Coast Line, and a sister of Hon. H. E. Day of Jacksonville, who resided here for many years.

Sympathy is extended to these relatives in their sad hour of bereavement.

He will go direct to Havana, where he will join a party from Louisiana and Arkansas, who are looking for homes. STATE UNIVERSITY.

The following comments are taken from the State papers, regarding Gainesvile and the University, and we feel deeply indebted for the kind words spoken:

Everybody help the University of Florida. Gainesville is to be congratulated on securing the location.—The Leesburg Commercial.

Now that the site of the State University has been fixed, the whole State should work to make the institution a success.—Madison Recorder.

The people of the State are to be congratulated, even more so than the citizens of Gainesville, upon the location of the new University.—Palatka Times-Herald.

The feeling is almost universal that the joint board did the best thing possible, and that each member acted and voted strictly in accordance with his conscentious convictions.—Tallahassee True Democrat.

Gainesville has secured the State University. We are not kicking because it was not located at Crystal River, for Gainesville is a good, healthy, wide-awake town, and The News offers congratulations.—The Crystal River News.

By a vote of 6 to 4 the Board of Control and the State Board of Education decided to locate the State University at Gainesville at their meeting last Thursday. We congratulate Gainesville on its being the winner—it was our choice from the start.—Palm Beach News.

Prof. Andrew Sledd, who was elected to the presidency of the State University, has been in charge of the present State University. He is a son-in-law of Bishop Warren A. Candler, of the Southern Methodist Church, and rated as one of the ablest educators who ever came to Florida.—Wauchula Advocate.

The Florida Board of Control met Thursday in joint session with the Board of Education and located the new University at Gainesville by a vote of six to four. This places the University in one of the most attractive towns in the State and meets the wishes of four-fifths of the people of Florida.—Macclenny Standard.

Now that Gainesville has been selected as the location for the State University, let all bickering be stopped and all pull together to give Florida an institution of learning that will be a credit to one of the greatest States in the Union. It should rank with those of Virginia, Pennsylvania, Michigan and other States. Cut out the politics and the graft and give us a hall of learning that will be of some practical use.—Fort Pierce News.

How Is Your Heart?

Is your pulse weak, too slow, too fast, or does it skip a beat?

Do you have shortness of breath, weak or hungry spells, fainting, smothering or choking spells, palpitation, fluttering, pains around the heart, in side and shoulder; or hurt when lying on left side?

If you have any of these symptoms your heart is weak or diseased, and cannot get better without assistance.

Dr. Miles' Heart Cure strengthens weak hearts, and rarely ever fails to cure heart disease. Try it, and see how quickly you will find relief.

"About January 1st, 1902, I took down with weakness and dropsy, and gradually grew worse. I was told by my family physician that my case was hopeless. My neighbors and family had given me up to die. My limbs and body were swollen to one-third larger than normal size, and water had collected around my heart. For at least three months I had to sit propped up in bed to keep from smothering. I sent for five bottles of Dr. Miles' Heart Cure, and by the time I had taken them all I was entirely cured. I feel better than I have for twenty years, and I am able to do any kind of work on my farm. My attending physician told me that if it hadn't been for Dr. Miles' Heart Cure I would now be in my grave."

L. T. CURD, Wilmore, Ky.

Dr. Miles' Heart Cure is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails he will refund your money.

She has been in Fitzgerald and Brunswick, Ga. Friends of Mrs. Waters, however, will learn with regret of the death of her niece, Miss Edith Mildred Taylor, the twelve-year-old daughter of Mr. and Mrs. E. F. Taylor, which occurred at Fitzgerald on the 23rd ult., of typhoid fever. The interment was held in Brunswick, where the family have now moved.

Aunt Caroline Davis, one of the oldest colored residents of this city, died Sunday. She was a faithful servant in the Stringfellow family for years, and was highly esteemed by both white and colored people. Aunt Caroline was eighty-five years old and leaves two sons to mourn her death, Lawrence Davis, the colored baker of this city, and another son who resides in Tampa. She was one of the few members of her race who were here in ante bellum days, and her passing to the Great Beyond reminds us forcibly of the fact that the "good old darkies" are fast leaving us, never to return. She deserved a good reward and there is no doubt but that she found it in the skies above.

RETURNED TO FIRST LOVE.

Mr. Pellett and Family, After Long Absence, Return to Old Home.

Mr. Pellett and family, formerly of this city but for the past few years residents of Jacksonville, have returned to their first love, so to speak, and will be content to remain citizens of Alachua county for an indefinite period.

It is understood that Mr. Pellett has purchased the Hanson farm on Bevins' Arm, Paine's Prairie, comprising about forty acres of as fertile farming lands as can be found in the county, where he proposes to farm and raise stock. He has already secured thirty head of fine cattle and proposes to go into the business right as he is confident there is money in stock raising.

The Pellett family will be gladly welcomed on their return as residents of this section.
